### HOW DO WE USE YOUR PERSONAL INFORMATION?

When you generate a public URL through Tunnelmole, we send your IP address in the “X-Forwarded-For” header to any clients that make requests to this URL. In addition, the URL itself may contain a transformed (but still very obvious) form of your IP address, such as the IP but with dots (.) replaced with dashes (-). This is to deter abuse and illegal usage of our service which would otherwise occur.

We use the Signup Information that we collect generally to provide you with services offered by The Site. Some of this information may go onto your public profile as shown on the sign up form.

Additionally, we use this Signup Information to communicate with you and provide you with information or advertising.

We use the Device Information that we collect to help us screen for potential risk and fraud (in particular, your IP address), and more generally to improve and optimise our Site (for example, by generating analytics about how our customers browse and interact with the Site, and to assess the success of our marketing and advertising campaigns).

### SHARING YOUR PERSONAL INFORMATION

We share your Personal Information with third parties to help us use your Personal Information, as described above. We use Google Analytics to help us understand how our customers use the Site--you can read more about how Google uses your Personal
